

B = 280 mm
A = 250 mm

FRONT

B = 280 mm
A = 250 mm

BACK

A = 500 mm
B = 530 mm

A = Final size of the printed multifunctional bandana

B = Printing data size (bleeding: 15 mm, will not be printed on bandana)

C = Tolerance to edges 22 mm

You can make printing motive borderless.

But if you want that elements are printed completely in any case, you have to take care that they have enough space to edges.

Printing tolerance to edges is necessary because of technical reasons.
